RE: APPOINTMENT OF CEO

Solco Limited ABN 27 084 656 691 (ASX: SOO) is pleased to announce the appointment of Mr Mark Norman as its Chief Executive Officer and Managing Director.

Mr Mark Norman has been performing a senior executive role with the Company since 2006 and has been acting in the role of Chief Executive Officer since earlier this month following the departure of Mr Alex Lamond.

Mark has a wealth of relevant industry and Company specific business experience, and enjoys the full trust and confidence of the Solco Board and staff. Brief particulars of his career highlights appear below:

Mr Mark Norman is a qualified electronics engineer who has maintained his technical relevance through continuing professional development with extensions into management, business systems and IT training.

Mr Norman's vocational experience commenced as an electrical engineer with Alcoa Australia (1984-84) joining the Orbital Group from 1985 to 2004, with appointments progressing from Senior Project Engineer to Country Manager (Indonesia) to CEO and President of several related Orbital Group companies in USA and France, as the organisation's operations globalised.

The quality of Mr Norman's hands on operational experience has more recently been displayed in his COO role at Advanced Nanotechnology Limited and his executive director role with Solco Limited.

Under Mark's leadership, Solco looks forward to capturing the emerging opportunities in the environmentally friendly energy sector for the benefit of all its stakeholders.

Steven Cole
Chairman
